THE CAPITOL.

THE YEAR 1894

COMPRISES the latter part of the 118th and the beginning of the 119th year of the Independence of the United States of America. It corresponds to :—

The year 6607 of the Julian Period.
" " 7402–7403 of the Byzantine Era, the year 7403 commencing on September 1.
" " 5654–5 of the Jewish Era, the year 5655 commencing on October 1.
" " 2647 of the Roman Era, according to Varro.
" " 2641 of the Era of Nabonassar (746 B. C.)
" " 2670 of the Olympiads, the second of the 668th Olympiad commencing in July.
" " 2206 of the Grecian Era.
" " 1610 of the Diocletian Era.
" " 2554 of the Japanese Era.
" " 1311–2 of the Mohammedan Era, the year 1312 commencing on July 5.

The first day of the year 1894 is the 2,412,830th day of the Julian Period.

CHRONOLOGICAL CYCLES, 1894.

Dominical Letter	G.	Solar Cycle	27
Epact	23	Roman Indiction	7
Lunar Cycle or Golden Number	14	Julian Period	6607

THE SEASONS OF 1894. (Eastern Standard Time.)

Spring Quarter commences March 20, at 9h. 59m. A. M. Summer Quarter commences June 21, 5h. 57m. A. M. Autumn Quarter commences September 22, 8h. 27m. P. M. Winter Quarter commences December 21, 2h. 58m. P. M.

ECLIPSES, 1894. (Standard Time.)

In the year 1894, there will be four eclipses ; two of the Sun, and two of the Moon ; and a Transit of Mercury over the Sun's disk.

I. A Partial Eclipse of the Moon, March 21. Visible more or less to the extreme western portion of North America, Asia, Australia and the Pacific Ocean. Between the Mississippi River and the Rocky Mountains the moon will set in the morning dimmed with penumbral shade. Occurring as follows:

PACIFIC STANDARD.

Moon enters Penumbra	3h. 57m. M.
Moon enters Shadow	5h. 25m. M.
Middle of Eclipse	6h. 20m. M.

First contact of shadow, at south point of the Moon's limb. Magnitude of Eclipse=0.248 (Moon's diameter=1.)

II. An Annual Eclipse of the Sun, April 6. Invisible to America. Visible to eastern Europe and Asia.

III. A Partial Eclipse of the Moon, September 14 and 15. Visible more or less to North and South America, the western portions of Europe and Africa, and the Atlantic and eastern Pacific Oceans.

Occurring as follows:

Standard.	Eastern.	Central.	Mountain.	Pacific.
Moon enters Penumbra	14d. 8h. 58m. A.	14d. 7h. 58m. A.	14d. 6h. 58m. A.	14d. 5h. 58m. A.
Moon enters Shadow	10h. 35m. A.	9h. 35m. A.	8h. 35m. A.	7h. 35m A.
Middle of Eclipse	11h. 31m. A.	10h. 31m. A.	9h. 31m. A.	8h. 31m. A.
Moon leaves Shadow	15d. 0h. 27m. M.	11h. 27m. A.	10h. 27m. A.	9h. 27m. A.
Moon leaves Penumbra	2h. 4m. M.	15d. 1h. 4m. M.	15d. 0h. 4m. M.	11h. 4m. A.

First contact of shadow, at north point of the Moon's limb. Magnitude of Eclipse=0.231 (Moon's diameter=1.)

IV. A Total Eclipse of the Sun, September 29. Invisible to America. Visible to portions of Africa, Hindostan and Australia, and to the Indian Ocean.

A TRANSIT OF MERCURY, November 10. Visible generally to North and South America, the western portions of Europe and Africa, eastern Australia, and the Atlantic and Pacific Oceans.

Occurring as follows :

Standard.	Ingress.			Egress.		
Eastern	10 h.	56 m.	M.	4 h.	12 m.	A.
Central	9 h.	56 m.	M.	3 h.	12 m.	A.
Mountain	8 h.	56 m.	M.	2 h.	12 m.	A.
Pacific	7 h.	56 m.	M.	1 h.	12 m.	A.

Ingress, on the eastern limb of the Sun.

JUPITER will be Evening Star till June 4; then Morning Star till December 22; and then Evening Star again the rest of the year.

THE EARTH.

DIMENSIONS.—Area, 197,000,000 square miles, of which 145,000,0 0 are of water, and 52,590,-4 5 are of land. Its circumference at the equator is 24,896.8214 statute miles. Its diameter at the poles, 7,898.88 9 statute miles, and at the equator 7,924.9111 statute miles.

DIVISIONS.—Of its principal land divisions, America occupies 8,1.5,438 square miles; South America 7,410,042 square miles; Europe 3,807,115 square miles; Asia 16,428,954 square miles; Africa 11,000,000 and Oceanica, 5,198,451 square miles.

MOUNTAINS.—The highest mountains in the world are respectively, *Mount Hercules* (Island of Papua), 32,786 feet; *Mt. Everest* (India), 29,002 feet; *Mt. Illamper* (Bolivia), 24,800; *Mt. Urangle* (Alaska), 20,400 feet; *Mt. Kilimandjaro*, 20,065 feet; *Mt. Elbrooz* (Russia), 18,526 feet.

RIVERS, ETC.—The largest rivers are respectively: North America, "*Missouri*" and "*Mississippi*," 4,575 miles; South America, "*Amazon*," 4,000 miles; Europe, "*Volga*," 2,300; Asia, "*Yang-tsi-kiang*," 3,000 miles; Africa, "*Nile*," 4,100 miles; Oceanica, "*Munay*" and "*Darling*," 1,500 miles.

LAKES, ETC.—The largest lakes are Lake Superior, in America, covering an area of 32,-000 square miles; Lake Michigan, 25,600 square miles. The lowest body of water is the Caspian Sea, which has been lowering for centuries. The deepest working mines are coal mines. The Lambert, in Belgium, is 3,490 feet deep; Zwickau, Saxony, 2,637; Rosebridge, England, 2,510; Chaumont, France, 1,876. Silver mines: The Birkenburg, Austria, 3,280 feet; St. Andre, Prussia, 2,532. The deepest bore is in Schladenbach, 5,734 feet.

CLIMATES.—The mean average temperature of the globe is 50° (Fahrenheit); at the poles, 13°; Polar Regions, 36°; Torrid Zone, 75°, and the equator, 82°. The greatest natural cold known is estimated at 105° below zero. The highest natural temperature is in Egypt, 117°.

POPULATION.—Its total population is 1,487-900,000, speaking over 900 different languages and upwards of 5,000 different dialects, resident as follows: North America, 89,250,000; South America, 36,420 000; Europe, 380,200,000; Asia, 850,000,000; Africa, 219,932,621; Oceanica, 37,610,495. The number of men capable of bearing arms is calculated at one-fourth of the population. Men and women are about equal in number. The average of human life is 38 years. The married men are longer lived than the single. Tall men live longer than short ones. Births are more frequent by night than by day, also deaths. Of these 33,033,033 die every year. One-half the people that are born die before the age of 16. Three and a half million are always on the seas of the world. 500,000 000 of the human race wear clothes, 250,000,000 do not, and 70,000 000 only partly clothe the body. Its religious creeds are upwards of 1,100, composed as follows: Roman Catholic, 198,000,000; Protestants, 110 000,000; Greek and Oriental Churches, 95,000,000; Jews, 8,000,000; Atheists, Deists, and Free Thinkers, 85,000,000; Buddhists, 420 000,-000; Brahmans, 180,000 000; Mohammedans, 150,000,000; Pagans, 50,000,000; other creeds, 123,000,000.

WEALTH, ETC.—The entire amount of money existant in the world is estimated as follows: Gold, $3,632,935,000; Silver, $3 968 700 000; Uncovered notes, $2,284,663,000. Total, $9,886,298,-000. The entire debt of the world, National, State and Municipal, is estimated at $150,000,-000,000.

AMERICA.

The outlying islands of the Western Continent were first discovered by Christopher Columbus upon his initial voyage of discovery in 1492, lauding upon what is now called Watting Island, on October 12th of that year; subsequently visiting the island of Cuba on October 27th, and Hayti on December 6th. Upon his second voyage, he discovered the island of Porto Rico upon November 15, 1493, and the island of Jamaica on May 3, 1498. The continent itself he first discovered at the mouth of the Orinoco River, August 1, 1498. In the previous year the coast of Labrador had been discovered by the Cabots on June 24th, and in the same year the Atlantic Coast of North America was explored by Sebastian Cabot.

THE UNITED STATES OF AMERICA.

The Federation of the United States of America consists of 44 States and 6 Territories. Its greatest length east and west is about 2,800 miles. Its average breadth about 1,200 miles. Its entire area 3,583,884 square miles or 2,291,615,347 acres. Its territory was acquired by conquest and cession from foreign nations at the following cost, to the following estimated extent, in the following order.

1783. Great Britain		827,844	Sq. miles	1848. Mexico	$15,000,000	545,783	Sq. miles
1803. France	$15,000,000	1,171,931	" "	1853. Mexico	10,000,000	45,535	" "
1819. Spain	6,500,000	59,268	" "	1867. Russia	7,200,000	557,390	" "
1845. Texas	10,000,000	376,133	" "	Total square miles		3,583,884	

The quantity of land and water surface is 98.16 and 1.84 per cent., respectively. Its population is estimated at present (1893) at 64,000,000. Of the entire population, over 11,000,000 reside in the 50 chief cities. Its center of population according to the Census of '90 was located 20 miles east of Columbus, Indiana. It averages to each square mile of land surface 21.08.

WARS OF THE UNITED STATES.

The Revolutionary War, 1775-1783, cost the United States $135,193,703. The Colonies furnished 395,064 troops. The War of 1812 cost $107,159,063; the number of troops estimated at 471,622. The Mexican War cost $100,000,000; the number of troops engaged was 101,282. The Civil War, 1861-1865, cost $6,189,929,900, according to official records; the number of troops engaged on the Union side was 2,859,132, the total loss 460,505; the number engaged on the Confederate side was about 493,000 and loss about 300,000.

CONGRESS OF THE UNITED STATES

Consists of a SENATE and HOUSE OF REPRESENTATIVES. The former elected by the Legislatures of the several States for a term of six years. The latter by the different Congressional districts of the States every two years, and consists of 356 members under the apportionment of 1891. The sessions are held at the national Capital, commencing the first Monday in December of each year. The Senate is presided over by the Vice-President of the United States, ex-officio. Isham G. Harris, of Tennessee, being the President pro tem; Secretary, William R. Cox, of North Carolina. Sergeant-at-Arms, Richard J. Bright, of Indiana.

The Secretary of the Senate receives a salary of $6,000. The Speaker of the House receives $8,000. The Senators and Congressmen receive $5,000 per annum, with a mileage allowance of 20 cents, and $125 per annum for stationery, etc. Over $150,000 is required to pay the mileage, and $50,000 to purchase the stationery.

WEALTH OF THE UNITED STATES.

The wealth of the United States is now estimated at $70,000,000,000. It is the largest owner of arable land on earth. It has 18,000,000 owners of the soil, far more than any other country. The area of its public domain is 1,849,072,587 acres, and constitutes 72 per cent. of the total area of the United States, including Alaska. Of this, about 1,150,000,000 acres yet remain unsold; or, excluding Alaska, 780,000,000 acres. Number and value of Farm Animals in the United States January 1st, 1893:

HORSES	16,206,802,	val. $992,225,185	Oxen and Other Cattle	35,954,196	val. $547,882,204
MULES	2,331,128,	" 164,763,751	SHEEP	47,273,553	" 125,909,264
MILCH COWS	16,424,087,	" 357,299,785	SWINE	46,094,807	" 295,426,492
				$164,284,583	$2,482,506,681

In a total of 6,004 precious Metal Mines, 4,738 produced during the year 1891, $33,175,000 in gold, and $75,416,565 in silver. Its output, during the same period, is estimated at $120,000,000, and its coal at $166,000,000. It has in operation 174,750 miles of Railroad, and 210,000 miles of Telegraph service, with over 750,000 miles of wire. The extent in mileage of wires for Telephone service in the United States is estimated at 3,126,820 miles. Its *assessed* valuation of all property available for taxation is $27,000,000,000; per capita, $428.40. Its expenditures, for the year ending June 30th, 1893, were $304,710,196.75. For Pensions, were $154,795,868.08. With a cash balance on hand at the same date of $122,462,290 38. For the fiscal year ending June 30th, 1894, the total appropriations are $319,011,846.62. For Pensions for the same period it is $180,676,234.12.

DEBT OF THE UNITED STATES, ETC.

The total *net indebtedness* of the UNITED STATES according to the Official Report at the close of the fiscal year, June 30th, 1893, amounted to $836,875,415.49.

Bonded	$585,037,100.00
Floating	374,300,305.87
	$959,337,765.87
Assets Available	122,462,290.38
	$836,875,415.49

The total net indebtedness of the several STATES according to Official Reports at the close of the year 1890 was $81,952,889.27.

Bonded	$194,800,371.88
Floating	43,596,218.43
	$238,396,590.31
Assets Available	156,443,701.04

VOTING QUALIFICATIONS OF STATES.

Article XV of the Constitution declares that the right of citizens to vote should not be denied or abridged by the United States or any state on account of race, color, or previous condition of servitude.

All States require that voters must be males, 21 years old, and CITIZENS. Women are allowed full suffrage only in Washington, Wyoming and Utah. Previous residence required is respectively as follows:

States.	State.	County	States.	State.	County	States.	State.	County

R-Republican. W-Whig. D-Democratic. U-Union. A-American. A M-Anti-Masonic. N R-Nat. Republican. P-Populist

In five States in 1892 the electoral vote was divided: California gave 8 electoral votes for Cleveland and one for Harrison, and Ohio gave one for Cleveland and 22 for Harrison; in Michigan by act of the Legislature each Congressional district voted separately for an elector; in Oregon one of the 4 candidates for electors on the People's Party ticket was also on the Democratic ticket; in North Dakota one of the 2 People's Party electors cast his vote for Cleveland, this causing the electoral vote of the State to be equally divided between Cleveland, Harrison and Weaver.

Popular Vote, Cleveland over Harrison	382,976
Electoral Vote, Cleveland over Harrison	132
Electoral Vote, Cleveland over Harrison and Weaver	110
Total Popular Vote, 1892	12,154,542

THE PRESIDENTIAL ELECTION AND SUCCESSION.

In the case of no candidate for President receiving a majority of the entire number of electoral votes, the three highest in the list should be submitted to the House of Representatives for choice. Each state having one vote and the quorum required being a number or member from two thirds of the states. In case of failure to so select before the ensuing fourth day of March, the Vice-President shall act as President. The same practice rules in regard to the Vice-President, except that the selection of candidates is reduced to the two highest on the list, and referred in like manner to the United States Senate for similar action.

The law in regard to the Presidential Succession is as follows:

"In the case of removal by death, resignation or inability of both President and Vice-President, a member of the Cabinet shall in the following order act as President until the disability is removed, or a President is elected: The Secretary of State, Secretary of the Treasury, Secretary of War, Attorney-General, Postmaster-General, Secretary of the Navy, Secretary of the Interior and the Secretary of Agriculture, *Provided*, congress be not then in session, or within twenty days of its regular session, in which case the acting President shall issue a proclamation convening congress in extraordinary session, giving twenty days notice of the time of meeting."

UNITED STATES POSTAL REGULATIONS.

RATES OF POSTAGE.

First-Class Matter.—Letters, matter wholly or partly in writing, drawings, and matter which is sealed against inspection, are first-class matter, and subject to the postage rate of *two cents for each ounce* or fraction thereof. On local or drop letters, *two cents for each ounce* or fraction thereof, when mailed at letter carrier's office, one cent where free delivery is not established. Postal cards having anything attached, or having writing or printing on the face, other than the address, are subject to letter rates of postage.

Second-Class Matter.—Embraces all newspapers and other periodical publications which are issued at stated intervals, and as frequently as four times a year. On newspapers and periodical publications of the second class, when sent by others than the publishers or news agent, the postage shall be prepaid at the rate of one cent for each four ounces or fractional part thereof.

Third-Class Matter.—Embraces books, circulars, photographs, proof-sheets, corrected proof-sheets with manuscript copy accompanying the same, and postage shall be paid thereon at the rate of one cent for each two ounces or fractional part thereof.

Fourth-Class Matter.—Embraces labels, patterns, playing-cards, visiting-cards, ornamented paper, and all other matter of the same general character, the printing upon which is not designed to instruct, amuse, cultivate the mind or taste, or impart general information. This class also includes merchandise and samples of merchandise, models, samples of ores, metals, minerals, seeds, etc., and any other matter not included in the first second or third classes, and which is not liable to destroy or otherwise damage the contents of the mail-bag. Postage rate thereon, one cent for each ounce or fractional part thereof.

Packages of transit, printed matter, are limited to four pounds each unless in the case where a *single* volume of a book shall exceed that weight. The sender may write his name on the wrapper, preceding the word "from," or may mark a passage of the text, or write on a fly-leaf a simple inscription or dedication. Package must be wrapped with open sides or ends.

Postage on merchandise, cards patterns, photographs, letter-envelops, letter-paper with or without printing, printed blanks, seed-cuttings, bulbs, roots, original painting in oil or water, chromos or maps, mounted or on rollers, printed letter-heads, models, ores, metals, and all mailable matter not embraced in the foregoing classes, *one cent*, prepaid by stamp, for *each ounce*, or fraction thereof. Liquids (except poisons, explosives, inflammable or offensive articles), in packages properly secured, may be transported. Limit of weight, 4lbs.

REMITTANCES BY POST.

Postal Notes.—Postal notes are issued by any money-order office on any other money-order office in the United States, for any sum under five dollars. The fee is 3 cents.

Postal Money-Orders.—An order may be issued for any amount, from *one cent to one hundred dollars.* Only three orders will be issued in one day from the same post-office to the same remitter in favor of the same payee.

DOMESTIC RATES.

For sums not exceeding $5	$0.05	Over $40 and not exceeding $50	$0.25
Over $5 and not exceeding $10	.08	Over $50 and not exceeding $60	.30
Over $10 and not exceeding $15	.10	Over $60 and not exceeding $70	.35
Over $15 and not exceeding $30	.15	Over $70 and not exceeding $80	.40
Over $30 and not exceeding $40	.20	Over $80 and not exceeding $100	.45

FOREIGN MONEY-ORDERS.

Foreign orders may be issued for any amount, from *one cent to fifty dollars.*

Rates for orders on Great Britain and Ireland, Canada, Switzerland, Germany, France, Algeria, Austria, Norway and Sweden, Denmark, Belgium, Portugal, Jamaica, New Zealand, New South Wales and Victoria,

On orders not exceeding $10	15 cents	Over $20 and not exceeding $30	45 cents
Over $10 and not exceeding $20	30 cents	Over $30 and not exceeding $40	60 cents
		Over $40 and not exceeding $50	75 cents

REGISTRATION OF MAIL MATTER.

First, third and fourth class matter may be registered. First class matter, or matter on which letter rates of postage have been paid, must always be sealed. Third and fourth class matter must be unsealed, fully prepaid at the proper rates and conform to all requirements. No matter excluded by law from the mails can be registered.

The fee on any registered matter, domestic or foreign, is ten cents on each letter or parcel, to be affixed in stamps, in addition to the postage. Two or more letters or parcels addressed to, or intended for, the same person, can be tied, or otherwise fastened together and registered as one. The Post Office Department or its revenue is not by law liable for the loss of any registered mail matter.

POST OFFICES.

The number of Post Offices in the United States June 30th, 1893, was 68,320. Of the first class there were 151; of the second class there were 675; of the third class there were 2,514; of the fourth class there were 64,980.

All Postmasters of the first, second and third class are appointed by the President and confirmed by the Senate.

Postmasters of the fourth class are appointed by the Postmaster General.

RATES OF POSTAGE OF FOREIGN COUNTRIES.

COUNTRIES NOT OF THE UNIVERSAL POSTAL UNION.

COUNTRIES.	Letters, per ½ oz.	Newspapers, per 2 oz.	COUNTRIES.	Letters, per ½ oz.	Newspapers, per 2 oz.
Ascension	10	2	Morocco (except Spanish possessions)	10	2
Cape Colony	10	2	Orange Free State	10	2
China, via Brindisi	10	2	St. Helena	10	2
Comoro Islands	5	1*			
Madagascar (except French Stations), British mail	10	2			

Registration allowed on all mail matter to South African Colonies and States, 10 cents.
*Per 2 ounces.

Prepayment to all of above places compulsory.

ALL COUNTRIES EXCEPT THE ABOVE ARE IN THE UNIVERSAL POSTAL UNION, within which the rates of postage (except as to Canada and Mexico) are as follows:

Letters, per 15 grams (½ ounce), prepayment optional. ("Unpaid Letters," 10 cents per 15 grams) ..... 5 cents.
Postal Cards, each ..... 2 cents.
Newspapers and other printed matter, per 2 ounces ..... 1 cent.
Commercial papers. { Packets not in excess of 10 ounces ..... 5 cents.
Packets in excess of 10 ounces, for each 2 ounces, or fraction thereof ..... 1 cent.
Samples of merchandise. { Packets not in excess of 4 ounces ..... 2 cents.
Packets in excess of 4 ounces, for each 2 ounces, or fraction thereof ..... 1 cent.
Registration fee on letters or other articles ..... 10 cents.

All correspondence other than letters must be prepaid, at least partially. Parcels Post to West India Islands, and Central and South American States, one pound in weight, or fraction thereof, 12 cents. Maximum weight, eleven pounds.

CANADA.

Letters, per ounce, prepayment compulsory ..... 2 cents.
Postal Cards, each ..... 1 cent.
Newspapers, per 4 ounces ..... 1 cent.
Merchandise and samples of merchandise, not exceeding 4 pounds, per ounce ..... 1 cent.
Commercial papers, same as to other Postal Union countries.
Registration fee ..... 10 cents.

Any article of correspondence may be registered. Packages of merchandise are subject to the regulations of either country to prevent violations of the revenue laws; must not be closed against inspection, and must be so wrapped and enclosed as to be easily examined. No sealed packages other than letters in their usual and ordinary form may be sent by mail to Canada.

MEXICO.

Letters, newspapers and printed matter are now carried between the United States and Mexico at same rates as in the United States. Samples are 1 cent for 2 ounces; limit of weight, 8¾ ounces. Merchandise, other than samples, may only be sent by Parcels Post. No sealed packages other than letters in their usual and ordinary form may be sent by mail to Mexico, nor any package over 4 pounds 6 ounces in weight.

SAMPLES.

By special agreement between the United States and France, Great Britain, Belgium, Switzerland, the Argentine Republic, Italy, Hawaiian kingdom, Egypt, and the British Colonies, except India, Canada, and the Australian Colonies, Austria, and Hungary, packets of samples of merchandise are admissible in the mails between the two countries, up to 350 grams (12 oz.) in weight, and the following dimensions apply to all Postal Union countries: 30 centimeters (12 inches) in length, 20 centimeters (8 inches) in width, and 10 centimeters (4 inches) in depth, or if they are in the form of a roll, 12 inches in length and 6 inches in diameter.

The approximate number of letters and postal cards transmitted annually in the mails of European countries is as follows: Great Britain and Ireland, 1,500,000,000; Germany, 1,200,000,000; France, 700,000,000; Austria-Hungary, 600,000,000; Italy, 250,000,000; Russia, 200,000,000; Belgium, 130,000,000; Spain, 120,000,000; Switzerland, 110,000,000; Netherlands, 100,000,000; Sweden, 100,000,000.

The total number of pieces of postal matter of all kinds which pass through the mails of the United States annually is about 3,800,000,000. The annual aggregate number of letters transmitted through the post-offices of the world may be estimated at 8,000,000,000, and of newspapers, 5,000,000,000.

PATENT OFFICE PROCEDURE.

Patents are issued in the name of the United States, and under the seal of the Patent Office, to any person who has invented or discovered any new and useful art, machine, manufacture, or composition of matter or any new and useful improvement thereof, not known or used by others in this country and not patented or described in any printed publication in this or any foreign country, before his invention or discovery thereof, and not in public use or on sale for more than two years prior to his application, unless the same is proved to have been abandoned, upon the payment of the fees required by law and other due proceedings had.

APPLICATIONS.

Application for a patent must be made in writing to the Commissioner of Patents. The applicant must also file in the Patent Office a written description of the same, and when the nature of the case admits of drawings, the applicant must furnish one copy signed by the inventor or his attorney in fact, and attested by two witnesses, to be filed in the Patent Office. In all cases which admit of representation by model, the applicant, if required by the Commissioner, shall furnish a model of convenient size to exhibit advantageously the several parts of his invention or discovery.

FEES.

Fees must be paid in advance, and are as follows: On filing each original application for a patent, $15. On issuing each original patent, $20. In design cases: For three years and six months, $10; for seven years, $15; for fourteen years, $30. On filing each caveat, $10. On every application for the reissue of a patent, $30. On filing each disclaimer, $10. For certified copies of patents and other papers in manuscript, ten cents per hundred words; for certified copies of printed patents, eighty-five cents. For recording every assignment, agreement, power of attorney, or other paper, of three hundred words or under, $1; of over three hundred and under one thousand words, $2; or over one thousand words, $3. For copies of drawings, the reasonable cost of making them.

UNITED STATES MILITARY ACADEMY AT WEST POINT.

Each Congressional District and Territory—also the District of Columbia—is entitled to have one cadet at the Academy, the cadet to be named by the Representative in Congress. There are also ten appointments at large, specially conferred by the President of the United States. Appointments are usually made one year in advance of date of admission, and may be made either after competitive examination or given direct, at the option of the Representative. The Representative may nominate a legally qualified second candidate, to be designated the alternate. The alternate will receive from the War Department a letter of appointment, and will be examined with the regular appointee, and if duly qualified will be admitted to the Academy in the event of the failure of the principal to pass the prescribed preliminary examinations. Appointees to the Military Academy must be between seventeen and twenty-two years of age, free from any infirmity which may render them unfit for military service, and able to pass a careful examination in reading, writing, orthography, arithmetic, grammar, geography, and history of the United States.

Academic duties begin September 1 and continue until June 1. Examinations are held in each January and June, and cadets found proficent in studies and correct in conduct are given the particular standing in their class to which their merits entitle them, while those cadets deficient in either conduct or studies are discharged. Cadets are allowed but one leave of absence during the four years' course, and this is granted at the expiration of the first two years. The pay of a cadet is five hundred and forty dollars per year, and, with proper economy, is sufficient for his support. The number of students at the Academy is usually about three hundred. Upon graduating, cadets are commissioned as second lieutenants in the United States Army.

UNITED STATES NAVAL ACADEMY AT ANNAPOLIS.

There are allowed at the Academy one naval cadet for each member or delegate of the United States House of Representatives, one for the District of Columbia and ten at large. The appointment of cadets at large and for the District of Columbia is made by the President. The Secretary of the Navy, as soon after March 5 in each year as possible, must notify in writing each member and delegate of the House of Representatives of any vacancy that may exist in his district. The nomination of a candidate is made on the recommendation of the member or delegate, by the Secretary. Candidates must be actual residents of the districts from which they are nominated.

The course of naval cadets is six years, the last two of which are spent at sea. Candidates at the time of their examination for admission must be not under fifteen or over twenty years of age and physically sound, well formed, and of robust condition. They enter the Academy immediately after passing the prescribed examinations, and are required to sign articles binding themselves to serve in the United States Navy eight years (including the time of probation at the Naval Academy), unless sooner discharged. The pay of a naval cadet is five hundred dollars a year, beginning at the date of admission.

Appointments to fill all vacancies that occur during the year in the lower grades of the Line and Engineer Corps of the Navy and of the Marine Corps are made from the naval cadets, graduates of the year at the conclusion of their six years' course, in the order of merit as determined by the Academic Board of the Naval Academy. At least ten appointments from such candidates are made each year. Surplus graduates who do not receive such appointments are given a certificate of graduation, an honorable discharge, and one year's sea pay.

UNITED STATES PUBLIC LANDS.

The Public land of the United States still open to settlement or purchase are divided into two classes, that which is sold by the Government for $1.25 per acre as the minimum price the other at $2.50 per acre, being the alternate sections reserved by the United States on railroad grants. Land is obtainable by heads of families or citizens over 21 years of age.

By means of Homestead Laws any citizen or intending citizen has a right to 160 acres of the $1.25 or $2.50 land after an actual settlement and cultivation of the same for a period of five years. Under the timber culture law, any settler who has cultivated for two years five acres in trees of an 80 acre homestead of 160 acres is entitled to a free patent to the land at the end of eight years.

The sixteenth and thirty-second section of every Township in the Public Lands are reserved for school purposes. They are sold on long time and annual instalments at a moderate rate of interest, the purchaser having the privilege of final settlement at any time. The area of Indian reservation in the States and Territories January 1st, 1893, was 92,177,666 acres.

FOREST AREA.

The total forest area in the United States is estimated at 480 000,000 acres; forest area, included in farms, 185,791,219 acres; area of land in farms unimproved, but not in forest, estimated at 75,000 000 acres; Alaska and Indian reservations are not included.

The present annual requirements for consumption of forest products in the United States are, approximately, over 22.000,000,000 cubic feet, made up of the following items: Lumber market and manufactures, 2,500,000,000 cubic feet; railroad construction, 600,000,000 cubic feet; charcoal, 250,000,000 cubic feet; fences, 500,000,000 cubic feet; fuel, 18,000,000,000 cubic feet; mining timber, 150,000,000 cubic feet.

At the present rate of cutting, the remainder of forest land in the United States cannot long meet the enormous demands on its resources. Of the two most important timbers for building purposes, the merchantable White Pine of the Northwest and of New England is practically gone, very little remaining; and there remains of the merchantable Long-leaf Pine of the South only about 1,500,000,000 cubic feet. The valuable Ash will probably be the first to be exhausted. Walnut and Tulip trees are also on the wane.

Forest fires are estimated to destroy values of about $12,000,000 annually.

THE AMERICAN FLAG.

It is not clearly known who designed the union of stars and stripes, several historians claiming that they were suggested by the arms of General Washington, which, by a singular coincidence, contained both.

The first star-spangled banner, according to the annals of that period, was made in June, 1776, a month prior to the Declaration of Independence. A Committee of Congress, of whom Colonel George Ross was one, accompanied by General Washington called on Mrs. Ross, on Arch street, in Philadelphia, and engaged her to make the flag from a rough drawing, which, at her suggestion, was redrawn by General Washington as the stars in the design were six pointed and not five-pointed as they should be, therefore the flag was in use for one year prior to its adoption by Congress.

On June 14th, 1777, the American Congress

"*Resolved*, That the flag of the thirteen United States be thirteen stripes, alternate red and white; that the union be thirteen stars, white in a blue field, representing a new constellation."

This is the only legislative action, of which there is any record, for the establishment of a National flag for the sovereign United States of America, and this act was not officially promulgated over the signature of the Secretary of Congress at Philadelphia until September 3d, 1777. Owing to the admission of two more states, on January 13th, 1794, Congress passed an amendment "That from and after the first day of May, 1795, the flag of the United States be fifteen stripes alternate red and white, that the Union be fifteen stars, white in a blue field."

Other States having been admitted to the Union, Congress in April, 1818, passed

"An Act to establish the Flag of the United States.

"SECTION 1. Be it enacted, etc., That from and after the Fourth of July next, the flag of the United States be thirteen horizontal stripes, alternate red and white, that the union have twenty stars in a blue field.

"SEC. 2. And be it further enacted, that on the admission of every new State into the Union, one star be added to the union of the flag, and that such addition shall take effect on the Fourth of July next succeeding such admission."

The flag now has forty-four stars, and several more will be added in a few years.

THE CONFEDERATE FLAG.

On March 5, 1861, the Confederate Congress at Montgomery, Alabama, enacted,

"That the flag of the Confederate States of America shall consist of a red field, with a white space extending horizontally through the center, and equal in width to one-third the width of the flag, the red space above and below to be of the same width as the white. The union, blue, extending down through the white space, and stopping at the lower red space; in the centre of the union a circle of white stars corresponding in number with the States of the Confederacy."

The similarity of this flag to the Stars and Stripes led to so much confusion at the battle of Manassas on July 21, 1861, that Gen. Joseph E. Johnston, after a consultation with Gen. Beauregard, decided to adopt a battle flag.

The design selected was one that had been prepared by Mr. Edward C. Hancock, of New Orleans, in April, 1861, and presented to Col J. B. Walton, of the Washington Artillery, of Louisiana. Its field was red or crimson, its bars were blue, and, running diagonally across from one corner to the other, formed the Greek cross, the stars white, their number being equal to the number of States in the Confederacy – the blue separated from the red by a small white fillet. This design was not accepted by the Confederate Government until after it had been consecrated by many a hard-fought battle. The original of this design is now preserved in the archives of the Southern Historical Society of New Orleans, Louisiana.

The third and last national ensign of the Confederacy was adopted by the Confederate Congress, February 4, 1865, and was thus officially described:

"The width, two-thirds of its length; with the union, now used as a battle flag, to be in width three-fifths of the width of the flag, and so proportioned as to leave the length of the field on the side of the union twice the width below it; to have a ground of red, and broad blue saltier thereon, bordered with white and emblazoned with mullets of five-pointed stars corresponding in number to that of the Confederate States. The field to be white except the outer half from the union, which shall be a red bar, extending the width of the flag."

Specimens of each of these ensigns are preserved in the flag museum of the United States War Department.

WHEAT HARVEST CALENDAR.

January.—Australia, New Zealand, Chile, Argentine Republic.

February and March—Upper Egypt, India.

April—Lower Egypt, India, Syria, Cyprus, Persia, Asia Minor, Mexico, Cuba.

May—Texas, Algeria, Central Asia, China, Japan, Morocco.

June—California, Oregon, Mississippi, Alabama, Georgia, North Carolina, South Carolina, Tennessee, Virginia, Kentucky, Kansas, Arkansas, Utah, Colorado, Missouri, Turkey, Greece, Italy, Spain, Portugal, South of France.

July—New England, New York, Pennsylvania, Ohio, Indiana, Michigan, Illinois, Iowa, Wisconsin, Southern Minnesota, Nebraska, Upper Canada, Roumania, Bulgaria, Austria-Hungary, South of Russia, Germany, Switzerland, South of England.

August—Central and Northern Minnesota, the Dakotas, Manitoba, Lower Canada, Columbia, Belgium, Holland, Great Britain, Denmark, Poland, Central Russia.

September and October—Scotland, Sweden, Norway, North of Russia.

November—Peru, South Africa.

December—Burmah, New South Wales.

FOUR OF A KIND.

A ROAD TO WEALTH.

Since man first entered into life, and met want at its threshold, he has speculated, and he will continue to do so until his exit. With him, speculation is something more than a passion; it is an instinct—a necessity. In exercising it he is merely accepting the conditions of life and practicing the only means at his disposal of improving them. In pursuance of this end he has naturally devised many and varied systems of speculations, such as farming, insurance, banking, trading, inventing, engineering, exploring, merchandising, all of which are controlled by identical circumstances, operate on the same lines and aim at a common end—the improvement of existing conditions. In all these, without a single exception, chance enters as the controlling factor. The Lottery is simply one of these many systems. In common with the others, it has its "rewards" and its "risks," differing from them in one respect alone. Unlike other systems, it concentrates and increases the former by multiplying the latter. Otherwise objects, motives and results being identical, no reasonable charge can be made against it without attainting all others. No God-given instinct can justly be pronounced immoral. And if its possession entails any one inalienable right, it is that of absolute freedom in its exercise free from coercion or alien prejudice. According the same equal *rights* to his neighbors, man has no concern whatever with their peculiar views or *sentiments;* and in the adoption of methods calculated to inure to his own welfare, he is entitled to the widest and most absolute freedom. Any individual attempt to restrict him by dictating a rigid moral standard for guidance is absurd and should be so resented.

In this world there is nothing eternal; all is transient. Change is the law of nature. All human events, actions and opinions are either founded upon or are controlled by the existing circumstances of their time, and our moral standards, like our habits, change like the changing seasons Nothing is absolute; everything is relative. The glory of one age becomes the shame of the next. The faith of one people the scoff of another. The wisdom of past ages, the jest of our own. If evidence were wanting we have only to turn back time's fruitful record to find it in abundance. In his day over-righteous Joshua, for the glory of the Lord, slew babes in arms. Even the Puritans who fled from religious persecutions in the old country, mutilated Quakers and hanged helpless old women in this. New England imported and implanted slavery on our soil, yet about a century later reaped her proudest glory in its extinction. What moral standard can be invoked to reconcile these shocking inconsistencies? Of what import, therefore, is any individual opinion in measuring the degrees of their condemnation?

There are men alive to-day, and not past the middle age either, who can recall the fact that in their childhood some of the most innocent of modern relaxations and diversions, such, indeed, as are now recognized as essential to the public welfare, were denounced as not only immoral, but even criminal. To visit the theatre was at least a high misdemeanor, to witness a circus was next to a felony, to play a game of cards was the rankest of crimes. These were stigmatized as offenses against religion itself. They were preached against in fiery diatribes, and written against in fierce polemics. Time passed and a less narrow intelligence admitted the utility of such means of amusement. We now accept them as valuable adjuncts in the relief of the cares of daily life and the elevation of the busy worker in his hours of leisure above the troubles of his toil. The original crusade against them was born of ignorance and a restricted view of human nature and human rights. This crusade failed because it was personal and unjust. Its advocates obviously believed sincerely in themselves, but the subsequent abandonment of the theory substantially acknowledged it as having been based on prejudice and error.

A moral standard to exist at all, in addition to being eternal, must be universal, the same the world over. It cannot be varied to meet the exigencies of place any more than those of time. To be justified, it must be everywhere applicable. Yet it is a patent and undeniable fact that the Lottery, while objected to in this country by a small individual class, is at the present time regarded by nearly all other great nations of the world as a legitimate financial system. Certainly that which is right and proper on one side of the Atlantic cannot be wrong upon the other. An ocean voyage does not effect such questions of legitimacy nor justly alter their honesty. It is therefore perfectly obvious that such factional opposition to the lottery system is born of error and represents only another form of narrow prejudice.

THE LOUISIANA STATE LOTTERY COMPANY

HAS SECURED A VALUABLE FRANCHISE FROM THE GOVERNMENT OF HONDURAS.

After the 1st of January, 1894, our drawings will take place in ***Puerto Cortez, Honduras, Central America,*** under and by virtue of a Contract with that Government for Twenty-five years.

The new Company will be styled the

THE HONDURAS NATIONAL LOTTERY COMPANY.

(The Louisiana State Lottery Company.)

Its drawing will take place monthly. There will be no change in the management and no interruption in the business.

Our address will be

PAUL CONRAD,

Via **PUERTO CORTEZ,**

Port Tampa City, Florida, **HONDURAS, CENTRAL AMERICA.**

This removal will vastly enlarge the Company's sphere of operations and increase its facilities, giving it an international character by extending its operations over both hemispheres, instead of as heretofore being mainly restricted to America, and placing it under the supervision and safeguard of the Republic of Honduras.

There will be no change whatever in the nature of its guarantees, its personal responsibilities, or methods of conducting its business, with the single exception of a trifling delay in its service. This, however, will be speedily overcome by cables, connecting Europe with America, the interval being bridged over by steamship service, direct from Puerto Cortez to one of the ports of the United States on the Gulf of Mexico.

THE HONDURAS NATIONAL LOTTERY COMPANY.

(The Louisiana State Lottery Company.)

It submits a record and financial standing of A QUARTER OF A CENTURY of active and successful operation, as a chartered institution, repeatedly endorsed by successive legislatures; during that long period not one single wrong-doing in any shape, manner or form has ever been adduced against it. On the contrary it has outlived storm after storm of financial detraction. Every engagement and promise made through its long and honorable record of twenty-five years has been kept to the letter, and to-day its reputation stands unsullied, its financial standing unsurpassed by any other monetary institution in the country. In this respect no better testimony in appealing to public favor could be required than is provided by the fact that it has the *guarantee* of the Hondurian Government as shown by the broad seal of the State on the face of every ticket.

Entirely beyond this financial guarantee, its probity was assured from its commencement by the publicity given to every detail of its business, and in the perfect safeguards thrown around them. It made the public a ticket-holding syndicate to control its drawings, *entirely free from the Company's direction*, and placed these drawings—which will take place in public at Puerto Cortez—under the personal supervision of two eminent gentlemen of the highest personal character, soldiers bred, and distinguished in the profession of arms—with all the spotless honor their profession and position involve—GENERAL W. L. CABELL, of Texas, and COLONEL CHAS. J. VILLERÉ, of Louisiana.

Such endorsements are significant. They conclusively prove the fact that the Honduras National Lottery Company must inevitably be honest, impartial and just in all its dealings.

The absolute fairness of the drawings will be appreciated when their methods of conduct are fully understood.

ITS DRAWINGS.

The monthly drawings take place at Puerto Cortez, Honduras, Central America, on the following dates: January 9, February 13, March 13, April 10, May 8, June 12, July 10, August 14, September 11, October 9, November 13, December 18.

The theory upon which these drawings are based is extremely simple. It is the syndicate or voluntary association of any number of persons for a given purpose.

The ticket-holders at each drawing unite by association in contributing a sum of money to be distributed among themselves by a company authorized to do so in a legal and agreed manner. This sum of money or fund is represented by 100,000 tickets (either in whole or fractions) and every person investing in these tickets becomes a shareholder in the distribution to the exact proportionate share indicated upon that ticket. The fund thus contributed by voluntary association is then distributed by the Honduras National Lottery Co., in the most absolutely impartial manner known to mankind—by "LOT," and under rules prescribed in its contract with the government, compelling the most rigid impartiality and exact justice; the least infringement of which would summarily forfeit its franchise.

There is not the least concealment or deception connected with it in any way. The published schemes state definitely and clearly in advance the exact sum to be distributed, the proportion to each ticket, and the amount retained by the company in compensation for affording the facilities. This in noticeable and beneficent contrast, on the score of morality, to the prevailing usages in the ordinary systems of speculation, as exhibited in stock jobbing, and even merchandising.

Upon the stage are—two large glass wheels, one containing the prizes as detailed in the published scheme, the other the numbers corresponding with the numbers on the tickets. Each of these—both prizes and numbers—are printed in large characters on slips of paper and encircled with small gutta percha tubes so as to mix readily and thoroughly. The wheels are then rapidly revolved, and at intervals, simultaneously, a number is drawn by blindfolded girls or boys from the wheel of numbers, and a prize from the wheel of prizes. These are opened, exhibited to the audience, verified, registered by the commissioners, and filed—the prize being placed against the number thus simultaneously drawn. This operation is repeated until the wheel of prizes is exhausted.

In addition to these there are others known as APPROXIMATION PRIZES, which are determined by the drawn Capital Prizes and are awarded to the series of fifty numbers on each side of the numbers drawing the three largest prizes. For example: If Ticket No. 31,246 draws the $75,000 Prize, those tickets numbered from 31,196 to 31,296 inclusive (100 in all) will each be entitled to $100.

The 1,998 Terminal Prizes will be determined by the two terminal figures of the numbers drawing the two largest prizes. For example: If the number drawing the $75,000 Prize ends with 31, then all other tickets where the numbers end with 31 will be entitled to $20.

THE PRIZES.

The work of sending the Official List TO EVERY CORRESPONDENT begins immediately after the drawing, and continues day and night until completed. Should any of our patrons experience any delay in receiving it, it is owing to their name being among the last on the list. These lists of prizes are also sent by express to all news agents upon application to Paul Conrad, as diagram below:

MR. PAUL CONRAD,
PUERTO CORTEZ,
Via
PORT TAMPA CITY, HONDURAS,
FLORIDA, U. S. A. CENTRAL AMERICA.

The prizes are paid in full, without deduction or delay, as soon as presented. Those drawn by correspondents can be readily collected, either direct or through any express company (C. O. D.) in the country.

THE TICKETS.

The HONDURAS NATIONAL LOTTERY COMPANY'S tickets will bear the impress of the Seal of State of the Republic of Honduras, the Certificate of the Commissioners, W. L. Cabell and C. J. Villeré, and the signature of the President, Paul Conrad.

Buyers are cautioned against the many inferior and dishonest lottery tickets which are offered for sale, for which vendors receive such enormous commissions as to render the payment of promised prizes very questionable. Buyers must, therefore protect themselves by insisting on having only a HONDURAS NATIONAL LOTTERY COMPANY'S ticket, and none other, if they want the advertised chance for a prize.

1894.

The Drawings during the year 1894 will take place regularly each month of the year, and in the following order:

The Monthly Drawings,

In which over $265,000 are distributed in 100,000 tickets, the price of which is $5.00 for wholes, $2.00 for two-fifths, $1.00 for fifths, 50 cents for tenths and 25 cents for twentieths, 11 whole tickets or their equivalent in fractions for $50.00, will take place upon the following dates:

JANUARY 9.	FEBRUARY 13.	MARCH 13.
APRIL 10.	MAY 8.	JUNE 12.
JULY 10.	AUGUST 14.	SEPTEMBER 11.
OCTOBER 9.	NOVEMBER 13.	DECEMBER 18.

SCHEME.

CAPITAL PRIZE, $75,000.

OTHER PRIZES.

1 PRIZE	OF	$75,000	$75,000
1 PRIZE	OF	20,000	20,000
1 PRIZE	OF	10,000	10,000
1 PRIZE	OF	5,000	5,000
2 PRIZES	OF	2,500	5,000
5 PRIZES	OF	1,000	5,000
25 PRIZES	OF	300	7,500
100 PRIZES	OF	200	20,000

GENERAL DIRECTIONS.

For Club rates, or any further information desired, write legibly, clearly stating your residence, with State, County, Street and Number. It is of the utmost importance that correspondents send in their orders early.

Tickets drawing prizes payable on presentation can be sent by express, C. O. D., or deposited for collection in any bank in the United States.

In remitting money for tickets, send either Bank Exchange on New York, Express Money Orders or Currency invariably by express.

Tickets being in the hands of agents throughout the world, it is impossible to furnish special numbers.

COMMISSIONERS' CERTIFICATE.

The HONDURAS NATIONAL LOTTERY COMPANY'S tickets will bear the following certificate:

"We do hereby certify that we supervise all the arrangements for all the monthly drawings of the HONDURAS NATIONAL LOTTERY COMPANY (Louisiana State Lottery Company), and in person manage and control the drawings themselves; and that the same are conducted with honesty, fairness and in good faith toward all parties, and we authorize the company to use this certificate in its advertisements."

W. L. CABELL,
CHAS. J. VILLERÉ, } *Commissioners.*

In addition to the above indorsement, the tickets will bear on their face, the signature of the President,

PAUL CONRAD.

General J. A. Early, retiring by reason of advanced age, writes as follows:

(COPY.) *New Orleans, August 8, 1893.*

DEAR SIR:—I cannot continue my connection with your Lottery Company when it moves to Honduras, because, on account of my increasing age, I do not think it would be prudent for me to go to a tropical region.

From an experience of a little more than sixteen years I know that the Company has been conducted with honesty and fidelity, and my retirement therefore from connection with it is not owing to any want of confidence in its integrity, but to the cause above stated.

With my best wishes for the success and prosperity of the Company, I am,

PAUL CONRAD ESQ., Very respectfully and truly yours, J. A. EARLY.
President of the Louisiana State Lottery Company.
